Subject **5th INTERPOL Digital Forensics Expert Group Meeting, New Haven, Connecticut, USA 9 – 12 June 2020**

Dear colleagues,

The INTERPOL Innovation Centre is pleased to announce that the 5th INTERPOL Digital Forensics Experts Group (DFEG) Meeting will be held in New Haven, Connecticut, from **9 to 12 June 2020** in close cooperation with the University of New Haven (UNH), Tagliatela College of Engineering.

The meeting is aimed at expert practitioners and managers working in the field of digital forensics and is open to law enforcement, government agencies, and invited digital forensic companies and academic institutions.

This meeting will focus on establishing ways to:

- Share best practices in digital forensic procedures and tools;
- Enhance cooperation among INTERPOL member countries working in the area of digital Forensics and also with the public / private sectors;
- Promote innovative solutions in the area of Digital Forensics;
- Facilitate a trust environment to grow your professional network.

On the first day of the event we are planning to organize some optional training activities in cooperation with the major forensic software companies. You will receive a detailed plan with activities available in due course.

During the 4th DFEG held in Sao Paulo (Brazil) several topics were identified as relevant and they will be included in the Agenda under different sections including innovative use of Open Sources Tools on Digital Forensics, cooperation research and innovation projects or use of triage techniques in Digital Forensics. We invite you to **propose suggestions for speakers and additional topics.**

To foster an interactive exchange among participants, we will opt for English as the working language of the event – please take this into account when selecting representatives from your organization.

A formal invite for the meeting will be sent in due course. For any queries please contact the Head of INTERPOL DFL Mr. Fernandez Lazaro at dfl@interpol.int.
We look forward to seeing you in New Haven.

Yours sincerely,

Anita Hazenberg
Director
INTERPOL Innovation Centre
