Subject: Migrant smuggling and human trafficking cases

Dear colleagues,

The INTERPOL People Smuggling Networks Unit wishes to once again thank NCB Dhaka for its cooperation in the framework of Operation Turquesa.

On 10 December 2019, NCB Dhaka shared a list of 11 files containing the briefings of migrant smuggling and human trafficking cases that are being investigated in Bangladesh and that have ties to other countries.

Our unit has reviewed the cases and run crosschecks against INTERPOL databases. There are no positive hits to report.

INTERPOL has now reached out to the concerned NCBs requesting their swift cooperation and we will keep you updated of any developments.

In addition, we would like to thank you for nominating both the point of contact at NCB Dhaka and your national member of the INTERPOL's Specialized Operational Network against migrant smuggling (ISON). As mentioned in previous correspondence, an invitation letter will be shortly sent out inviting the ISON member from your country to participate in the Debriefing Meeting for Operation Turquesa, set to take place 24-26 February 2020 in the Dominican Republic.

We thank you once again for your continued support in the spirit of international police cooperation.

With kind regards,

**Vulnerable Communities Sub-Directorate**
