HEARING EVALUATION REPORT

RE: Sumaya Ibrahim Ali Age: 33 Yrs Female UAE
Hospital NO: MQ 387038

The above mentioned patient with the complaint of hearing loss was evaluated in our ENT & Audiology Clinic, Department of ENT on 9th May, 2007.

Audiologic Results:-

Pure tone Audiometry was done and according to this test results, she is diagnosed as to have **Severe to Profound sensory neural hearing loss in both ears.**

Recommendation:-

1. Sumaya is advised to fit with **100 % digital Behind-The-Ear hearing aid for both ears.**
2. She is also advised for periodic audiological evaluations to monitor any change in her hearing level.

This report is issued upon the patient's request.

Yours Sincerely,

Nesreen Al Otaibi,
Audiologist
