If readers thought information a CDC whistleblower revealed in the movie *VAXXED* was disturbingly shocking, absolutely regrettable, and pure scientific fraud, what you are about to learn regarding the Anthrax vaccines given to U.S. military personnel, plus how the U.S. government and armed services top brass reacted regarding Anthrax-vaccine injuries, aka "Gulf War Syndrome," and subsequently neglected vaccine-damaged service people ought to have everyone in this country, regardless of your stand on vaccinations—*and especially the U.S. Congress*—literally "up in arms" demanding ALL vaccinations be stopped as "crimes against humanity."

"Direct Order" Documentary (Full) - Soldiers Ordered...

Private Kamila Iwanowska refused to take the Anthrax vaccine and she was discharged.

There are over 600,000 men and women in the U.S. military with thousands ill, including many have died. The military says it's an *"emotional ailment"* even though the Anthrax vaccine was not approved by the FDA! It's been called a "misguided experiment."

Len Schroeter, an attorney who prosecuted many Vietnam era Agent Orange cases, offers that the horrors of human experimentation are done to this day and are done largely by governments, including the United States.

Earl Staufer's story of how he suffered every day for a year-and-a-half is totally upsetting! Forty-some months [as of the interview] he complains of constant screaming sounds in his ears!

We learn that President Bill Clinton signed Presidential Executive Order 13139 that allows DoD to experiment on service personnel without their consent or knowledge*, if deemed in the interest of national security.* Is that what's going on with chemtrails now?

Thirty percent of those vaccinated in the military confirmed vaccine damage, aka Gulf War Syndrome. Many military careers—especially pilots—ended due to Anthrax vaccine damage. It was common knowledge in the services that vaccinees were getting harmed and sick after taking the Anthrax vaccine.

Frank Fischer, a Lt. Col. MD in the Air Force Reserve Medical Corps, is vaccine-damaged. You cannot believe how he was treated by the dispensing physician, who gave him the shot and who refused to answer his questions regarding what she had given him!

Many of the Anthrax-vaccine-damaged-vaccinees symptoms remind me of the same health issues that young girls have experienced after receiving the HPV vaccines!

Rich Rovet, a male nurse and a U.S. Air Force member, finds the way vaccine-damaged service people were treated unconscionable; he testified before a congressional hearing. He had doubts about the controversial vaccine—Anthrax—being given on the flu shot line concomitant with other

The Anthrax vaccines could not pass FDA inspection; they apparently were adulterated. That bodes evil for the American public, according to Sammy R Young, retired Air Force Medical Service Corps Reserve Colonel.

Captain Jon Buck, U.S. Air Force emergency physician, did not want to receive the vaccine! He refused several types of orders citing informed consent laws, which were not honored regarding Anthrax vaccines. He went through a court martial trial; found guilty and fined $21,000; reprimanded and sentenced to 60 days on base! Nine-eleven happened and you have to hear what happened next.

At 27:23 on the timeline, you can see an Air Force jet spraying what looks like chemtrails. Whoa!

A Major was forced out of the Connecticut National Guard for refusing to take vaccines or mandate his men take them, so his commander formed an investigation 'tiger' team. Thirteen Anthrax studies were produced since 1997 when during the first 30-37 years there were only 3 studies done! Army did all the research; owns the patents; paid for the licensing studies; and the U.S. Army was the sole customer since 1970!

Damaged vaccinees were told in hospital that they had vaccine damage, but later told *not so!*

The vaccine program was suspended at Dover Air Force Base, and you must hear what happened with all the 'big guns' sent in to convince them that the Anthrax vaccine was 'safe' and nobody is sick from the vaccine! There was no concern about the safety of the Anthrax vaccine and squalene was never in the vaccine. So why do anti-squalene antibodies show up in vaccinees' systems? How come FDA found it in five vaccine lots? Oh, the lies that accompany vaccines at all levels! Listen for yourself. Readers really have to hear what's called "back pedaling" by a commanding officer!

> *Instead of being sprayed with a chemical this time, we are being injected with it. What's the difference? Even the Nazis didn't experiment on their own troops!*

Protect the institution; don't expose the truth—seems to be the MO at CDC, FDA, and the Armed Services.

personnel.

This detailed exposé about an *unapproved Anthrax vaccine* apparently made with squalene that has caused thousands of service men and women to become vaccine-damaged must not be swept under any or all administrative carpets as a new classification, i.e., "Gulf War Syndrome," but truly for what it is: vaccine damage.

Furthermore, there are two undeniable smoking guns that it's Anthrax vaccine damage. They are: 1) Kuwaitis, Israelis and Egyptians, who fought in the Gulf War, *did not experience Gulf War Syndrome.* Furthermore, 2) none of those military personnel received an Anthrax vaccine, only U.S. personnel. Is it a mere coincidence or is there a vaccine-damage correlation with causation variable involved?

Don't our armed services personnel deserve better treatment than they have gotten and are getting regarding vaccine damage being pawned off as an "emotional disorder"?

Here's a book readers may want to check out about that terrible vaccine tragedy, which happened to military personnel. The book's subtitle claims *"The Covert Government Experiment That's Killing Our Soldiers–and Why GI's Are Only the First Victims."*

Between Gulf War Syndrome, Autism Spectrum Disorder, and the HPV Gardasil Girls deaths and thousands of adverse events globally, vaccines need to be deep-sixed *IF* we want to have a functional military and the guarantee of future generations that are productive and procreating individuals.
