The Most Comprehensive List Of Mind Control Patents On The Entire Internet

I've researched the dark, deep, and normie web and could not find a comprehensive list of mind control patents, so I compiled all of the ones I found listed on those sites. Afaik this is the most comprehensive list of mind control patents(US patents) you can find on the internet, please comment if you know of a more comprehensive one or know of a patent that can be added to the list. This list is featured at the very end of the article **Reconnecting With The Universal One Part 2 of 3: The Pyramid With The Eye Looks Down Not Up (https://spellsoftruth.blog/2020/05/05/reconnecting-with-the-universal-one-part-2-of-3-the-pyramid-with-the-eye-looks-down-not-up/)**, but I believe it can stand on its own as a useful resource for researchers.

   All of those Mind Control Patents only work with imagery and sound waves encoded and decoded by the mind and genetic code (DNA translation), these are obsolete technology that does not work when someone is centered within their heart and out of his mind (out of time, feeling without the filters and veils of the mind)

Yes some of them are obsolete. Yes someone with their veil lifted will know with absolute certainty that almost all digital electronics are mind control because there will be spiritual demons and tentacles emanating from the screen(i mean this literally). Check out this video by a guy named vat_city. It explains how the 'screens' are used to control people, predict the future, manipulate events, fake events, and much more, I also think its related to your idea that CERN is a cybernetic organ that links AI with the spiritual realm. Perhaps the way it links with the spiritual is through the 'mirror world' explained in vat_citys video. https://youtu.be/x08hVfJCB2g
