3. As I type and laugh @ your misinterpretation of my agenda, as yours supersedes anything holy to this country's morality, I find your inadequate adversities to my approach lacking the intestinal fortitude and spine to do the actual right thing as *God's work*.

4.

5. But since my life has been priced as incompetent, do not ever think that I have an inferior knowledge base to thou, for I am extremely insulted at the mere idea you and the bastardized system you work for and represent would ever insinuate I am incompetent.

6.

7. When I spoke the acronym, NCSWIC, it should have rang in your ears in the tone of Dr Martin Luther King's "I have a dream" speech. It was he who said,"

9. I believe. I believe. I believe.

11. But, you and those like you went out of your way, to deface, invade, and destroy my home and life. Manipulate, sabotage, and steal my property. You and those like you violated every right I took an oath to defend outside, and inside a jail. You and those like you killed the therapy dog I had, and lied on paperwork to make me look violent while falsifying arrests.

Every agency, CIA to FSB, 5eyes to MI6, to even interpol work with us, and we work with them. Not for them. We work for an agenda that benefits the world, not for personal gain.

24.

25. We must join together, or we will perish together. I, and those like me, say we join together and live. Because we have a dream of a single world respective to each nation, and its history. Because it is we who believe.

29. I personally have taken care of the world but am now disallowed to care for myself and have been declared incompetent by thugs in suits. Right. I have literally saved everyone on the planet, bust out the largest human and child trafficking network known to man run by the elites, connected so high that I have been attacked by those that are involved with world politics known as the Bilderbergs and involved in the Committee of 300. I've exposed double agents to Vladimir Putin, and saved countless American politicians. When killnet.cz was active, I destroyed the operator with space force, cyber command, and Interpol. By doing so, I saved the power grids not only in the United States, and Moscow, but also intervened the 3rd party attacker of the nuclear reactor in the Ukraine. He was a Czech International cyber terrorist and planned to kill those politicians and the US power grid. When I was in the USMC, I caught Mexican cartel members within our ranks, stealing US Marine Corps IR gear, that intended to use it for human trafficking and drug smuggling. It was worthwhile, and 20 years later led to the commandant of the United States Marine Corps himself along with the Board of Corrections of Naval Records signing off on the upgrade of my dd214 with full benefits.
