Process for CUI Determination

Marking Guidelines for Unclassified Documents Containing CUI

To determine if unclassified information in your document is CUI, check the information against the CUI Registry. Does it potentially fit within a broad category of CUI? Examples of some common categories would be Privacy, Legal, Budget.

Mandatory CUI markings for unclassified documents include:

- The acronym “CUI” at the top and bottom of each page
- The CUI designation indicator.

Do not add “UNCLASSIFIED” before “CUI.”

Do not add the CUI category to the top and bottom of the page. The category is listed in the CUI designation indicator block.

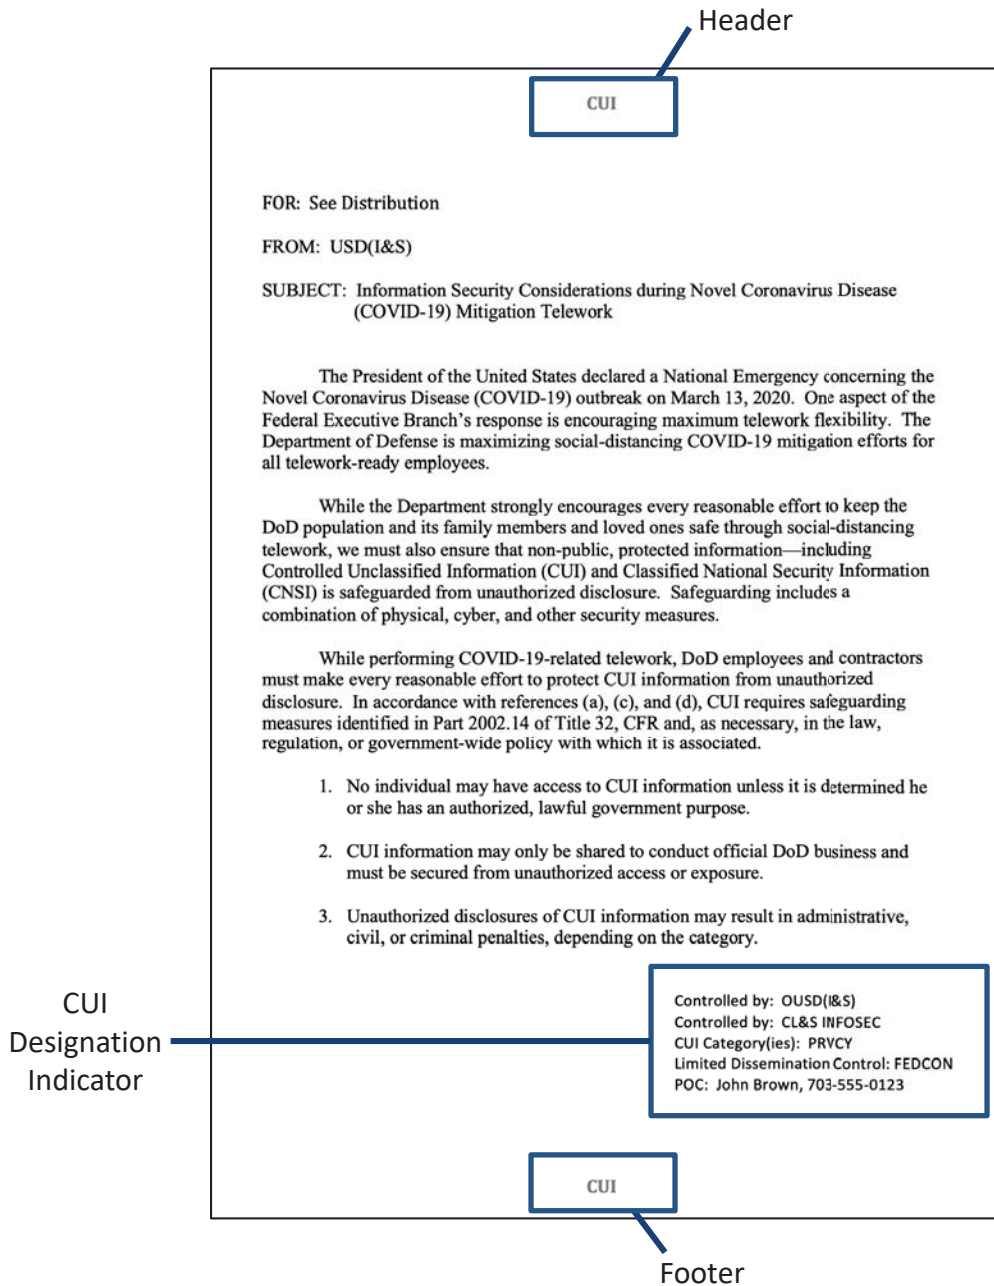

Portion markings are optional on unclassified documents. However, if annotated, they must be applied to all portions, to include subjects, titles, paragraphs, subparagraphs, bullet points, figures, charts, tables, etc. Do not apply portion markings to the CUI designation indicator.

The CUI designation indicator must be annotated on the first page or cover of all documents containing CUI.

- Line 1: the name of the DoD Component (not required if identified in the letterhead)
- Line 2: identification of the office creating the document
- Line 3: identification of the categories contained in the document
- Line 4: applicable distribution statement or limited dissemination control (LDC)
- Line 5: name and phone number or email of POC

If all the sub-paragraphs or sub-bullet points carry the same classification as the main paragraph or bullet point, portion marking is not required for the sub-paragraphs or sub-bullet points.

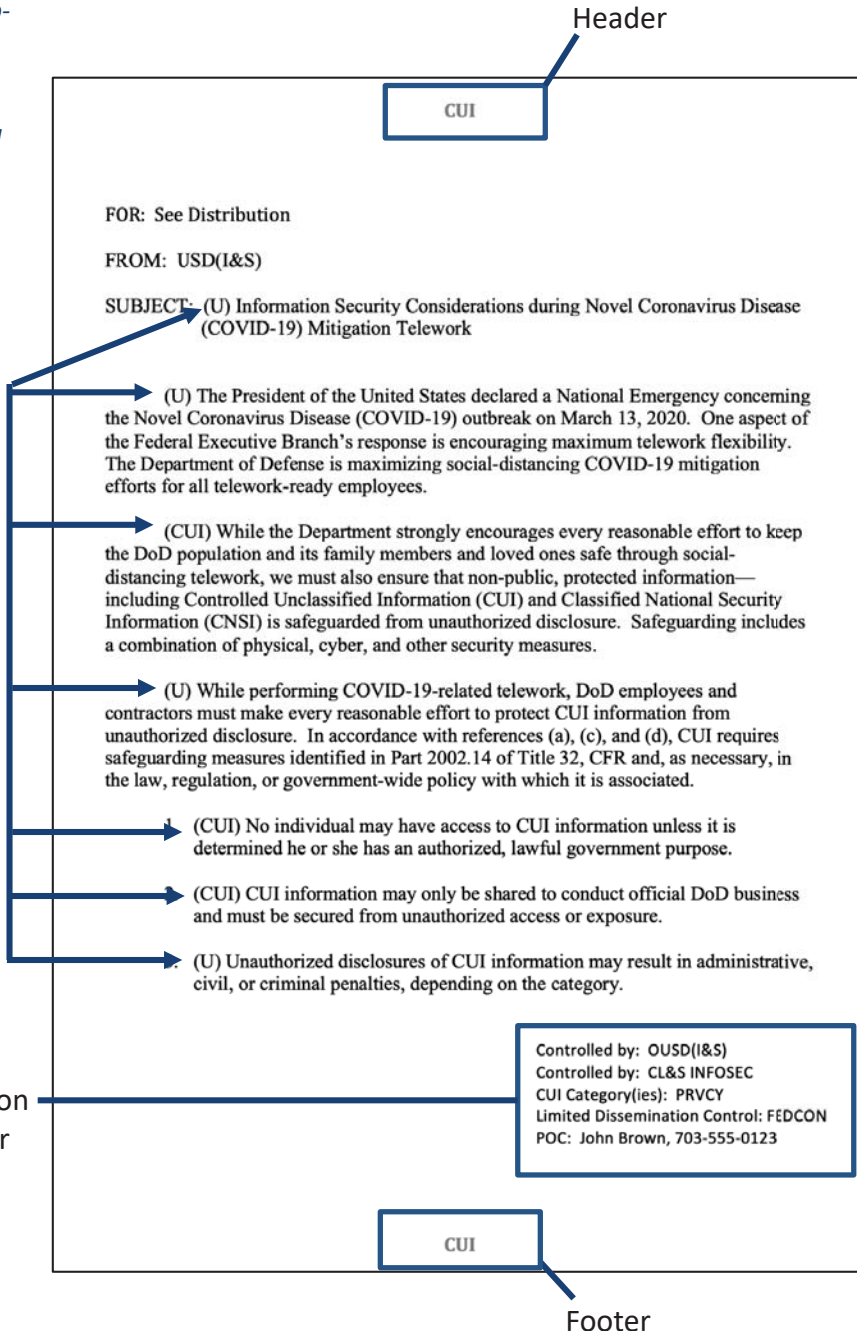

However, if any of the sub-paragraphs or sub-bullet points carry different classifications from the main paragraph or bullet point, portion marking is required for all the sub-paragraphs or sub-bullet points as demonstrated here.

Portions include subjects, titles, paragraphs and sub-paragraphs, bullet points and sub-bullet points, headings, pictures, graphs, charts, maps, reference list, etc.

The CUI designation indicator block does not require a portion mark.

Marking Guidelines for Classified Documents Containing CUI

Documents containing classified information will be marked in accordance with DoDM 5200.01, Volume 2. All documents will be portion marked, contain the overall classification, and include the classification authority block.

CUI markings in classified documents will appear in portions known to contain **only** CUI and will be marked as “(CUI).” If possible, segregate CUI from classified portions. If this is not possible, the portion marking will reflect the highest classification level in the portion.

“CUI” will not appear in the banner line.

Classified documents containing CUI will include both the CUI designation indicator and the classification authority block.

A warning statement will be placed at the bottom of the first page of multi-page documents alerting readers to the presence of CUI in a classified DoD document:

This content is classified at the [insert highest classification level of the source data] level and may contain elements of controlled unclassified information (CUI), unclassified, or information classified at a lower level than the overall classification displayed. This content shall not be used as a source of derivative classification; refer instead to [cite specific reference, where possible, or state the applicable classification guide(s)]. It must be reviewed for both Classified National Security Information (CNSI) and CUI in accordance with DoDI 5230.09 prior to public release.
[Add a point of contact when needed.]

If all the sub-paragraphs or sub-bullet points carry the same classification as the main paragraph or bullet point, portion marking is not required for the sub-paragraphs or sub-bullet points.

However, if any of the sub-paragraphs or sub-bullet points carry different classifications from the main paragraph or bullet point, portion marking is required for the sub-paragraphs or sub-bullet points.

Process

Check the unclassified information in your document against the CUI Registry. Does it fit within a broad category of CUI? Examples of some common categories would be Privacy, Legal, Budget.

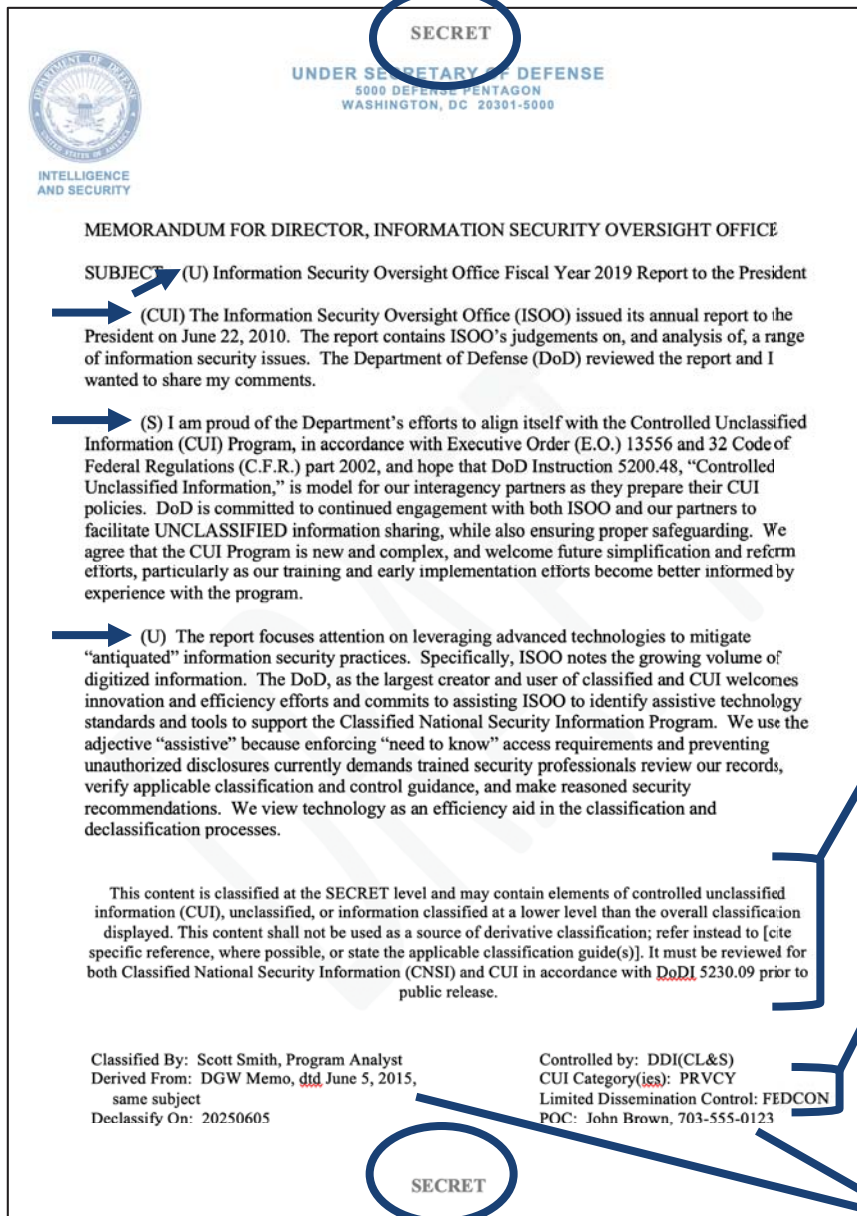

Apply portion marks to entire document.

Add overall classification to top and bottom of the document. The overall classification is determined by the portion markings. Do not include CUI in the overall classification.

Add the classification authority block.

Add the CUI designation indicator.

CUI Markings for Classified Documents

Portion marking is mandatory on classified documents. Portions include titles, subjects, paragraphs and sub-paragraphs, bullet points, charts, etc.

"CUI" is not placed in banner line.

All portions, including the CUI portions, are marked.

Warning statement: placed on the first page of multi-page classified documents containing CUI

The categories and dissemination controls are not carried forward to the banner line.

Both the classification authority block and CUI designation indicator are placed at the bottom of the first page.

Step 1: Apply portion marks.

Step 2: Add overall classification to top and bottom of the document. The overall classification is determined by the portion markings. Do not include CUI in the overall classification.

Step 3: Add CUI warning statement.

Step 4: Add the classification authority block.

Step 5: Add the CUI designation indicator.

CUI Designation Indicator

The CUI designation indicator must be readily apparent and shall appear only on the first page or cover. It is placed at the bottom right side of all documents containing CUI, including classified documents.

The CUI designation indicator is comparable to the classification authority block used for classified documents. However, it is not carried over from a source document to a newly created document. The CUI designation indicator will be individualized for each document containing CUI.

Limited Dissemination Controls

LDCs are CUI executive agent-approved controls agencies may use to limit or specify CUI dissemination.

Access to CUI should be encouraged and permitted to the extent that access or determination:

- Abides by the laws, regulations, or Government-wide policies that established the information as CUI.
- Furthers a lawful government purpose.
- Is not restricted by an authorized limited dissemination control established by the CUI executive agent.
- Is not otherwise prohibited by law.

Agencies may place limits on disseminating CUI for a lawful government purpose only using the dissemination controls listed in Table 2 of DoDI 5200.48 or methods authorized by a specific law, regulation, or government-wide policy.

LDCs or distribution statements cannot unnecessarily restrict CUI access.

Control	Marking	Description
No Foreign Dissemination	NOFORN	Information may not be disseminated in any form to foreign governments, foreign nationals, foreign or international organizations, or non-U.S. citizens.
Federal Employees Only	FED ONLY	Dissemination authorized only to employees of the U.S. Government executive branch agencies or armed forces personal of the U.S. or Active Guard and Reserve.
Federal Employees and Contractors Only	FEDCON	Includes individuals or employers who enter into a contract with the U.S. to perform a specific job, supply labor and materials, or for the sale of products and services, so long dissemination is in furtherance of the contractual purpose.
No Dissemination to Contractors	NOCON	Intended for use when dissemination is not permitted to federal contractors, but permits dissemination to state, local, or tribal employees.
Dissemination List Controlled	DL Only	Dissemination authorized only to those individuals, organizations, or entities included on an accompanying dissemination list.
Authorized for Release to Certain Foreign Nationals Only	REL TO USA, [LIST]	Information has been predetermined by the designating agency to be releasable only to the foreign country(ies) or international organization(s) indicated, through established foreign disclosure procedures and channels.
Display Only	DISPLAY ONLY	Information is authorized for disclosure to a foreign recipient, but without providing them a physical copy for retention to the foreign country(ies) or international organization(s) indicated, through established foreign disclosure procedures and channels.
Attorney Client	ATTORNEY-CLIENT	Dissemination of information beyond the attorney, the attorney's agents, or the client is prohibited, unless the agency's executive decision makers decide to disclose the information outside the bounds of its protection.
Attorney Work Product	ATTORNEY-WP	Dissemination of information beyond the attorney, the attorney's agents, or the client is prohibited, unless specifically permitted by the overseeing attorney who originated the work product or their successor.
Deliberative Process	DELIBERATIVE	Dissemination of information beyond the department, agency, or U.S. Government decision maker who is part of the policy deliberation can result in the loss of the privilege and is prohibited, unless the executive decision makers at the agency decide to disclose the information outside the bounds of its protection.

Distribution Statements

Distribution statements will be used with:

- CUI export-controlled information
- Other scientific, technical, and engineering information
- Controlled technical information

Export controlled information must also be marked with an export control warning as directed in DoDI 5230.24, DoDD 5230.25, and Part 250 of Title 32, CFR.

WARNING - This document contains technical data whose export is restricted by the Arms Export Control Act (Title 22, U.S.C., Sec 2751, et seq.) or the Export Control Reform Act of 2018 (Title 50, U.S.C., Chapter 58, Sec. 4801-4852). Violations of these export laws are subject to severe criminal penalties. Disseminate in accordance with provisions of DoD Directive 5230.25.
--

The distribution statement will be reflected in the CUI designation indicator and will be annotated in full on the first page or cover of the document.

Use of NOFORN Marking with CUI

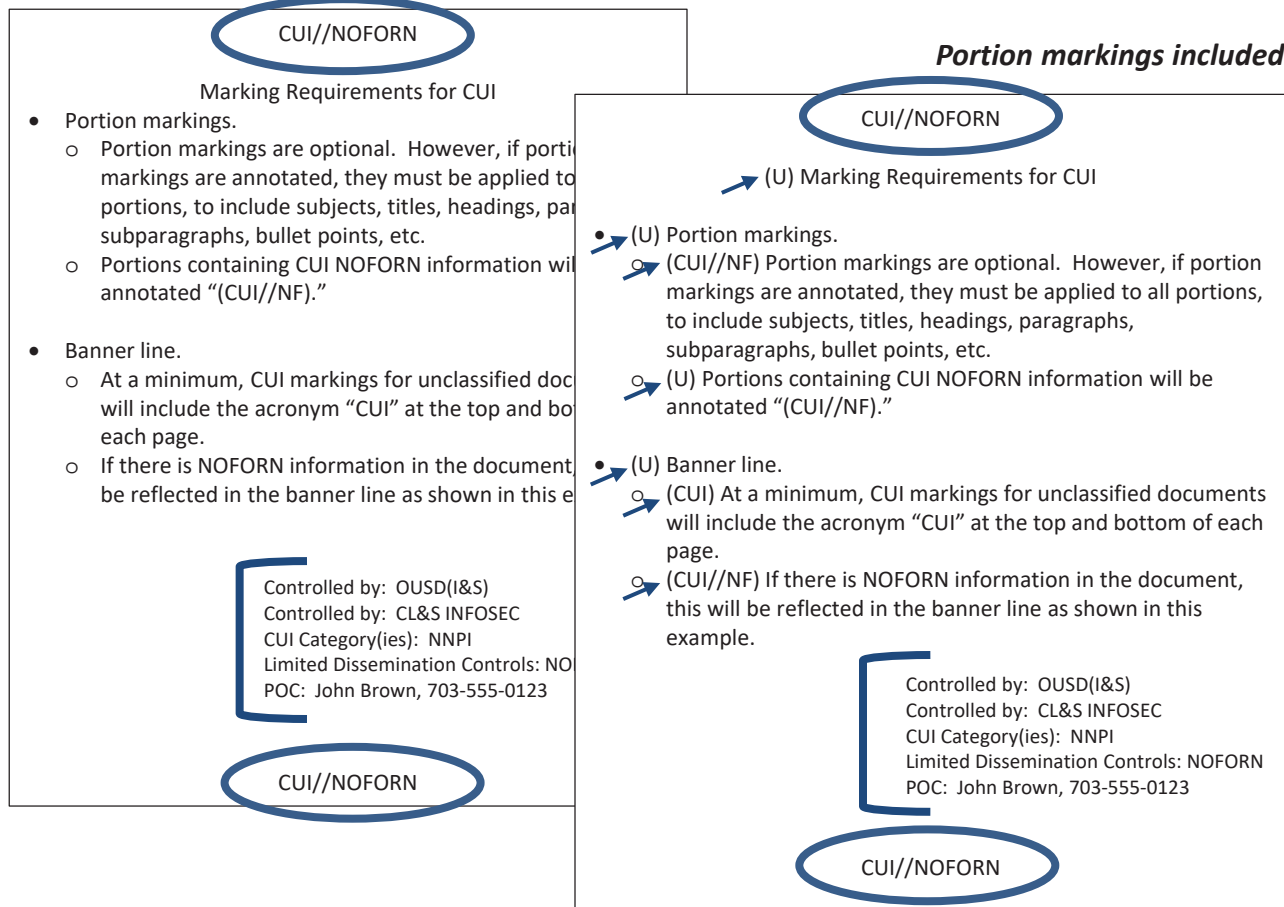

Not Releasable to Foreign Nationals (NOFORN) is an explicit foreign release marking used to indicate intelligence information that may not be released in any form to foreign governments, foreign nationals, foreign organizations, or non-U.S. citizens. It can also be applied to controlled unclassified intelligence information properly characterized as CUI.

DoD exceptions to use of NOFORN. DoD allows the following types of non-intelligence information (classified and unclassified) to be marked as NOFORN:

- Naval Nuclear Propulsion Information (NNPI).
- Unclassified Controlled Nuclear Information (UCNI).
- National Disclosure Policy (NDP-1).
- Cover and cover support information.
- Can be applied to unclassified information properly categorized as CUI having a licensing or export control requirement.

NOFORN is always carried forward to the banner line.

Mandatory markings

Use of REL TO Markings with CUI

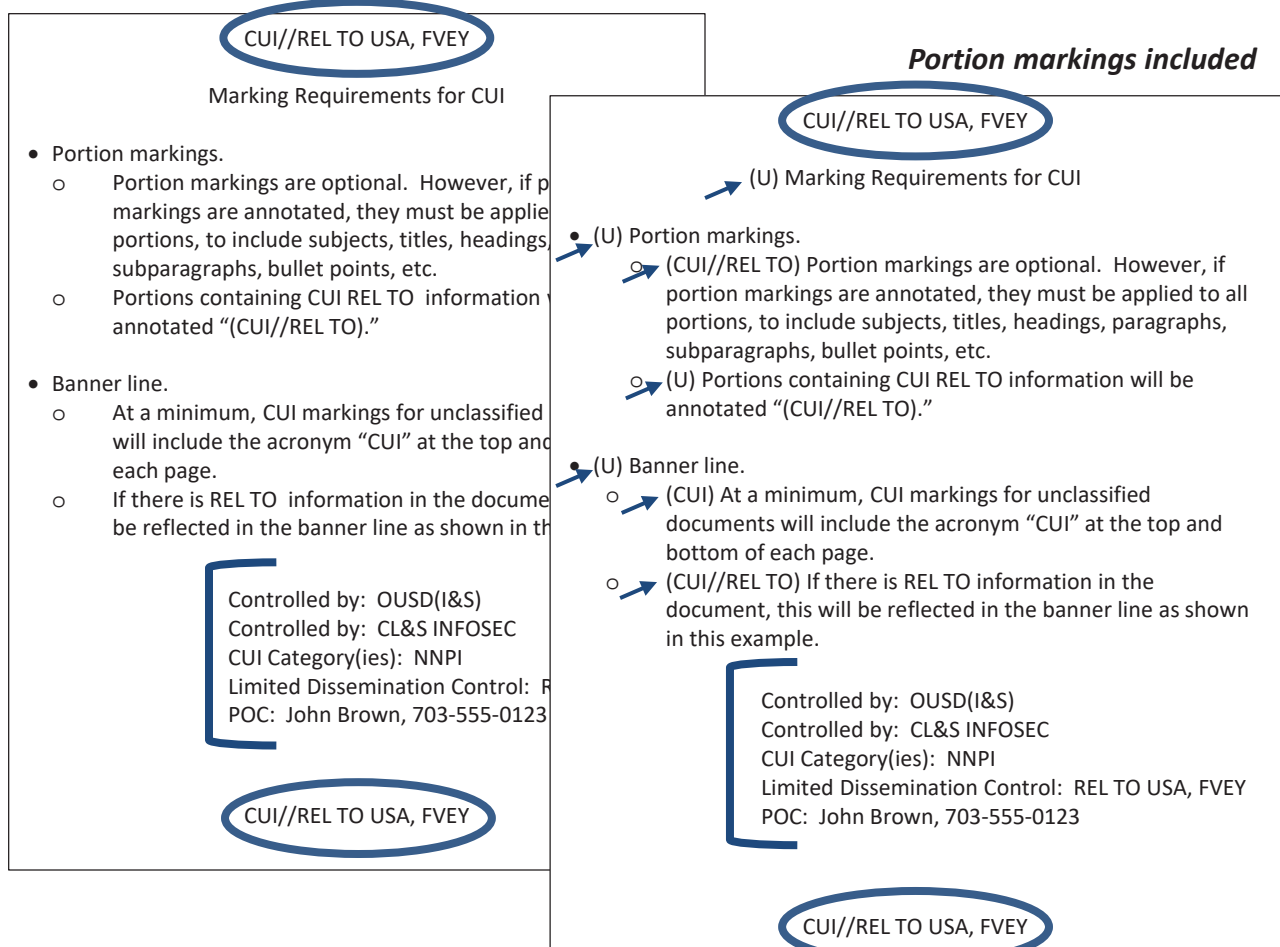

Authorized For Release To (REL TO) markings:

- An explicit foreign disclosure and release marking to indicate the information has been predetermined by the originator to be releasable to foreign countries or international organizations through established foreign disclosure procedures and channels. Consult your Foreign Disclosure Office for specifics on CUI.
- Can only be applied, when warranted and consistent with relevant law, regulation, government-wide policy, or DoD policy, to information properly categorized as CUI with an export control or licensing requirement with a foreign disclosure agreement in place.
- Export-controlled CUI transfers to foreign persons must be in accordance with the Arms Export Control Act, International Traffic in Arms Regulations, Export Control Reform Act, Export Administration Regulations, and DoDI 2040.02. In accordance with DoDDs 5230.11 and 5230.20, a positive foreign disclosure decision must be made before CUI is released to a foreign entity.
- DoD operational CUI not related to intelligence may be marked as REL TO.

Note: "REL TO" will be carried forward to the banner line with the following exceptions:

- If there are portions marked NF and portions marked REL TO in the same document, NOFORN takes precedence and will be annotated in the banner line.
- If there are portions marked "CUI" and portions marked "CUI//REL TO", NOFORN will be annotated in the banner line.

Mandatory markings

Decontrol

There are no timelines to decontrol CUI unless specifically required in a law, regulation, or government-wide policy.

Decontrol will occur when the CUI no longer requires safeguarding.

Agencies must decontrol CUI, unless doing so conflicts with the related law, regulation, or government-wide policy.

Decontrolling CUI through the public release process relieves authorized holders from requirements.

CUI Registry

The DoD CUI Registry:

- Provides an official list of the Indexes and Categories used to identify the various types of CUI used in DoD.
- Mirrors the National CUI Registry www.archives.gov/cui
- The registry is located on the NIPRNet Intelink Sharepoint site at: <https://intelshare.intelink.gov/sites/ousdi/hcis/sec/icdirect/information/CUI/Forms/AllItems.aspx>.
- The DoD CUI Registry is located at <https://www.dodcui.mil>
